Tomás Herrera

Austin, TX | 512-555-0127 | tomas.herrera.qa@example.com | linkedin.com/in/tomasherrera-example

PROFESSIONAL SUMMARY

Detail oriented customer support specialist transitioning into software quality assurance. 6 years resolving technical issues for a SaaS product, writing clear bug reports and working with engineers daily. Completed a QA bootcamp and built a personal test automation portfolio. Quick learner, strong communicator, and calm under preasure.

RELEVANT SKILLS

Testing

- Wrote and executed 300+ manual test cases for web and mobile apps (regression, smoke, exploratory).
- Logged and triaged bugs in Jira with clear reproduction steps, screenshots and logs; engineers rated my reports 'very actionable'.
- Basic test automation with Selenium WebDriver (Python) and Pytest; API testing with Postman.

Technical

- SQL queries for data validation, browser dev tools, Charles Proxy, Git basics, Linux command line.
- Familiar with Agile/Scrum ceremonies; participated in sprint planning and retros as support liason.

Communication

- Handled 40+ customer tickets/day with 96% CSAT; trained 12 new support hires.
- Bilingual - English and Spanish (native-level).

PROJECTS

- **Todo-App Test Suite** - 45 automated UI + API tests (Selenium, Pytest, GitHub Actions CI). github.com/tomas-h-example/todo-tests
- **Bug bounty practice** - reported 4 valid low-severity issues on public test sites (non-monetary).
